

Speed Bumps
 Brandsafe[®] Impact Protection

Features and Benefits

- Help calm the speed of vehicles
- Available in 2 heights - 50mm and 75mm
- Suitable for domestic and commercial vehicles
- Individual yellow and black speed bumps

Available with a choice of 2 sizes: 50mm high suited to domestic use, and 75mm high suited to commercial applications. Sold in individual units.

To order simply measure the width of your road in mm and divide it by 500 to work out how many pieces are required. If you require curved end sections at each end deduct 1 speed bump section from your total. For example: If your road is 3000mm wide, divide by 500 = 6 sections with no end sections, or 5 sections plus 2 end sections = 5 x 500 + (210 x 2) = 2920mm.

Material Specification

Manufactured from recycled PVC thermoplastic/ polymer

50mm or 75mm high

Speed bumps are 500mm long

End sections are 216mm long

Material	Recycled PVC thermoplastic/polymer
Recycling group	PVC/3
Colour/finish	Yellow and black
Height	50mm and 75mm
Fixing anchors	Rawl M12 Coach Screw 100mm Long + Form C Washer (4) c/w 14mm
Fixture hole diameter	14mm
Drill hole diameter	14mm
