

racksack® mini

Waste Segregation Sack

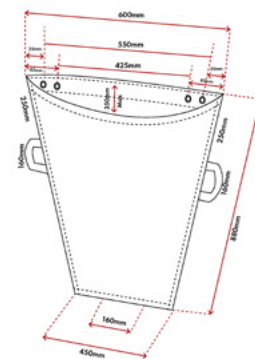

racksack® mini is a small recycling sack, designed to attach to a variety of fixtures and places. When hung, it has an open 'frog mouth' to easily receive waste, yet its tapered design means it hardly encroaches on floor space. Three strong handles are woven into the edge of the sack, one on each side for carrying and one on the base, so it can be easily tilted from the base and emptied once full.

Features and Benefits

- Designed for workstations and workbenches including, packing benches; picking stations; assembly stations and desks.
- Thanks to the new fastening options, you can also attach the racksack® mini to many different fixtures, such as pedestrian barriers and walls.
- Available in a range of text and symbol designs, plus a blank option.
- Ensures compliance with waste legislations.
- Made from strong, durable polyester.
- Supplied with 2x S hooks.
- Capacity: 70 litres.
- Weight capacity using S hooks: Up to 25 kg.
- Size: 880 mm (H) x 600 mm (W).
